Sleeping pad repair kit	Optional - can use duct tape too.	ind
Sleeping bag		ind
Tarp / Rope	1 / tent. I will NOT be bringing an extra tarp for my tent.	Harold or Hentie
Large Tarp / Rope	We should bring at least one extra 8x10' for the group to huddle under in heavy t-storms!	Rod
Rope	100 feet each should about cover our needs.	ind
Stove	1 burner per tent group. Should use the same stoves so that we have redundancy if one stops working. Will discuss options with the group.	Harold, Vern

Fishing		
Tacklebox	Remember, you have to carry all this stuff! I use a thicker drybag for mine - easier to carry than a tacklebox.	ind
Rod	Two piece is nice. 6ft medium action.	ind
Reel	Spinning / baitcasting - I recommend spinning with 8-10lb test line. If bringing two reels you could do 6-8lb for Walleye and 20lb for pike / trout.	ind
Backup Rod / Reel	If you're paranoid you can bring a backup rod / reel or a different rod for pike / walleye fishing.	ind
Jig heads	Your favorite variety, we've had great luck with pink 1/4 and 1/8 oz heads. Bring at least 12, you will lose quite a few of these.	ind
Jig tails	Your favorite variety, we've had great luck with flavored white. Worth the extra \$\$\$ for flavored and / or salted. Bring at least 24-48 as these don't last long when the bite is on!	ind
Spoons	For pike / trout. Bring around 4 to 6 medium to large sized spoons.	ind
Crankbaits	Your favorite, we've had some luck with larger blue Rapala's with catching Lake Trout. Expensive so I usually only bring 2-3 max.	ind
Fish holder line	To keep fish fresh while fishing (attach to gills and the boat)	ind
Pliers	To remove hooks from fishes mouth - handier than you might think!	ind
Line leaders	To protect the line from Pike teeth - get 12" length or so. 6-12 should be plenty.	ind
Ontario fishing licence	Get this before the trip, online.	ind
